

I think it is criminal if the FCC allows Sinclair Media to electioneer is out of bounds and should not be condoned unless fair and equal perspective of the opposing point of view is given equal airtime in an equal time slot.

I am urging you to stop this dangerous prescedent before it happens and maintain a free and balanced access to the public air.

We are democrats and republicans, true....

but first and foremost, we are citizens of the United States and our Consitution should come above everything else or both democrats and republicans will suffer.

Keep the airwaves free of corporate behemoths who are willing to subjugate the law for their own personal gain.

Thank you,

Brian Weiner
